## Language

- English
- Setswana
- Zulu (basic)

## Skills

- Product testing  
(manual testing)
- Playwright Framework  
(UI end-to-end testing)
- Javascript  
Programming  
language
- Reporting and  
Documentation
- Writing Reports
- React Js
- Redux
- Node JS and express
- API / HTTP Request
- Database Design and  
Use

## Experience

**Entrostat & Bizzamm I 173 Oxford Rd, Rosebank  
Johannesburg, 2196**

**Sept 2022 - April 2024 | Internship contract**

Identifying software weaknesses by executing automated test scripts and utilizing variable input to assess various use cases. Verifying test outcomes against known software defects to identify areas for further testing. Identifying test automation standards when developing tests, running scripts, and analyzing results to meet testing goals. Delivering automated test results to project teams for validation and assessment, detailing evaluation criteria and the assessment process. Identifying reasons for test failures, adjusting testing parameters and scripts, and retesting to confirm results align with expectations.

**QA - Playwright e2e testing and manual testing**

**n'Reality I Unit 31, 244 Jean Ave, Die Hoewes,  
Centurion, 0046**

**May 2024 - Nov 2024 | 6 months contract**

Evaluating software vulnerabilities in mobile applications, web platforms, and mobile web interfaces through a combination of automated testing scripts and manual testing techniques to cover a wide range of use cases. Confirming test results against known software defects to highlight areas needing further scrutiny. Establishing and adhering to test automation standards during the development of automated tests, execution of scripts, and result analysis, while also incorporating manual testing to achieve comprehensive testing objectives. Providing project teams with detailed reports on both automated and manual test results for validation and evaluation, including specific criteria and the assessment methodology. Investigating the causes of test failures, adjusting testing parameters and scripts as necessary, and conducting retests—both automated and manual—to ensure outcomes meet expected standards across all platforms.

**QA - Playwright e2e testing and manual testing**

## Education

**Ntolo High School**

Matric

Completed - 2009

**The Coding Ground**

Full-stack web development  
2021 - 2022
